Summary

Java Full Stack Developer with 4+ years of experience building enterprise applications using Java, Spring Boot, Microservices, Kafka, React.js, and SQL/NoSQL databases. Experienced in developing secure REST APIs, payment integrations, GST/e-invoicing solutions, event-driven systems, and AI-powered developer tools.

Skills

Languages: Java, SQL, PL/SQL, JavaScript (ES6), HTML5, CSS3

Backend: Spring Boot, Spring Security, Spring AI, REST APIs, Microservices, Kafka, Event-Driven Architecture

Frontend: React.js, React Hooks, React Router, Tailwind CSS, Responsive Web Design

Security: OAuth2, JWT, RBAC, Keycloak

Databases: MySQL, MongoDB, Redis, Oracle SQL

Tools & Practices: Docker, Git, GitHub, JasperReports, Agile/Scrum, Payment Integration

Work Experience

Software Engineer | Data Core Systems Inc, Kolkata

Mar 2024 - Present

- Developed an AI-powered exception and error debugger using Spring AI to analyze error logs, suggest solutions, and recommend best practices, with query caching for cost optimization.
- Integrated Canara Bank VAN/VPA APIs supporting UPI, QR, NEFT, and RTGS payment workflows, implementing secure backend services for payment processing and transaction handling.
- Integrated Razorpay POS for card transactions and developed real-time sales and reconciliation reports using JasperReports to improve settlement visibility and accuracy.
- Architected a reusable GST integration framework with a configurable JSON builder and JasperReports-based PDF/TXT generation, reducing compliance-related errors by 25%.
- Developed reusable React.js components and responsive enterprise screens using React Hooks, Tailwind CSS, and REST API integration, enabling real-time visualization and interaction with backend transaction data.

Software Engineer | Quality and Testing Info Solutions Pvt. Ltd., Gurugram

Sep 2022 - Mar 2024

- Developed 15+ Spring Security-protected REST APIs, improving data exchange efficiency by 35%.
- Optimized REST API performance and database queries to improve application responsiveness and reduce production latency.

Education

BCA | ABS Academy of Science Technology and Management, Durgapur

2016 – 2019 | CGPA: 8.0/10

Relevant Coursework: Java, C/C++, OOPS, DBMS, SQL, Data Structures, Operating Systems, Computer Networks

Project Work

- **Habit Tracker (Microservices Architecture) | Spring Boot, Kafka, Spring Security, Keycloak**
  - Implemented OAuth2 RBAC with Keycloak & Kafka event streaming.
- **AI Error Debugger | Spring AI, Java**
  - Developed Spring AI tool to analyze error logs, suggest solutions, and cache queries.

Certifications & Achievements
